# Safe miner mission

We offer stability from volatile markets and a passive income solution through liquidity mining and yield farming. Our protocol offers a hedge against the downtrend, earning a yield independent from the market.

Our yield farming contracts are settled in BNB, BUSD, allowing investors to choose their risk level corresponding to market exposure. Secured by the Binance Blockchain, we're putting security first with a reliable smart contract platform.

At safe miner we're bringing these solutions to the people and giving back power to their money. We aim to build a thriving community of like-minded enthusiasts as we continue to release more exciting features.

---

# Safe busd (SBUSD) Token

The value of SBUSD will rise as more users invest BUSD and when SBUSD tokens are minted.

## Mint SBUSD

- > You can earn SBUSD from using BUSD to mint
- > You will earn SBUSD tokens as a percentage of BUSD invested irrespective of the SBUSD price i.e. If you invest 100 BUSD you will receive 1.5 SBUSD per day
- > You cannot unstake your BUSD tokens

## Staking SBUSD

- > You can earn SBUSD from staking SBUSD
- > SBUSD staking is locked for 7 days from your last stake
- > Unstaking SBUSD tokens will result in 50% being returned to the investor, and 50% being burned

## Terminology

- > Total Supply : The maximum amount of SBUSD that can exist (fixed at 1,000,000)
- > Circulating Supply: The amount of SBUSD tokens that are currently in wallets
- > Available Supply : (Total Supply - Circulating Supply)
- > SBUSD Price : (Total BUSD Balance / Available Supply)

## Tokenomics

- > As you claim SBUSD from minting, it is removed from the Available Supply and added to the Circulating Supply
- > As you sell SBUSD , it is removed from the Circulating Supply and added to the Available Supply

## Fees

- > Invest : 10% on BUSD, 0% on SBUSD
  - > Sell : 0%
-

# Safe bnb investment plans

A sustainable investment platform based on Binance network (BSC) blockchain smart-contract technology. we offer 3 safe bnb investment plans

## 1. plan1

Plan 1 offer:

2% daily return

expires after 200 days

offer total 400% Return

## 2. plan2

Plan 2 offer:

1.50% daily return

expires after 150 days

offer total 225% Return

## 3. plan3

Plan 3 offer:

1.50% daily return

expires after 90 days

offer total 135% Return

*≈ Plan 1: min. 0.1 BNB,  
max. of 50 BNB*

*≈ Plan 2: min. 0.2 BNB,  
max. of 45 BNB*

*≈ Plan 3: min. 0.2 BNB,  
max. of 40 BNB*

## SAFE BNB PLANS DETAILS

1. you need to claim every 5 to 7 days, 5 days cooldown and 7 days max reward accumulation.
2. every 5-7 days max must withdraw and decide upon yourself to keep or deposit back (like a compound) but the contract will still have the 50% there to withdraw from while the other 50% is being used in syrup pools to earn the 2% needed
3. SAFE bnb plans are very close to 0% ponzi because a 50% of deposits are put into syrup pools and defi pools to generate income that gets injected back in the contract so they are very sustainable.

# How SBUSD AND BNB PLANS MUTUALLY BENEFIT EACHOTHER

1

INVEST IN BNB PLANS

PLAN 1

2 % daily  
200 days

PLAN 2

1.5% daily  
150 days

PLAN 3

1.5% daily  
90 days

2

MINT SBUSD WITH BUSD

MINT  
SBUSD BY  
STAKING  
BUSD AND  
EARN UPTO  
550% APR

STAKE  
SBUSD TO  
EARN MORE  
SBUSD AND  
EARN 900%  
APR

SELL YOUR  
EARNED  
SBUSD FOR  
BUSD AND  
PROFIT

50 % OF BNB INESTED  
DEPOSITED INTO YIELD POOLS

20 %  
INVESTED  
IN SBUSD  
AND  
REWARDS  
ARE  
INJECTED  
INTO BNB  
POOL

20% IN  
SYRUP  
POOLS AND  
*grizzly*  
beefy AND  
REWARDS  
INJECTED  
INTO BNB  
POOL

5 %  
INVESTED  
IN FARM OF  
FORTUNE  
AND  
REWARDS  
INJECTED  
BACK INTO  
OUR BNB  
POOL

5 %  
INVESTED  
IN  
BUSDMACH  
INE 3.0 AND  
REWARDS  
INJECTED  
BACK TO  
BNB POOL

20% OF BNB POOL WILL BE  
INVESTED INTO SBUSD

20% OF  
EVERY BNB  
INVESTED  
IN BNB  
PLANS  
WILL BE  
USE TO  
MINT  
SBUSD

EARNED  
SBUSD  
FROM  
THOSE BNB  
FUNDS  
WILL BE  
INJECTED  
BACK INTO  
BNB POOL

HENCE BOTH  
BNB PLANS  
AND SBUSD  
MUTUALLY  
BENEFIT  
EACHOTHER

# COMMUNITY VOTED INVESTMENT

## Safe miner is community protocol

All investments will be voted on by safe miner investors. They can vote on which defi protocol, yield farm or syrup pools to invest

### ROADMAP Q1 2023

- Platform
- Pre-Launch Marketing
- Audit
- Multi Community Creation
- LAUNCH

### ROADMAP Q2 2023

- Youtube Marketing Campaign
- AMA
- platforms listing
- Partnership DeFi
- DAO

# Thank you!

Our advanced protocol has seamlessly integrated these features into our ecosystem. Enjoy stability without the worry of liquidity being drained from too quickly

## Yield

Increasing yet sustainable yields over longer periods of time on plans starting at 2% (bnb plans) to a total of 5% (SBUSD) daily.

## Security

Simplified smart contract logic. Audit. Less aggressive yields for longer-term returns. Zero developer interference.

## Longevity

Fee structure designed to incentivize more stablecoin accrual over the long-term.
